

# SCHARTHOOTH MACULA LENS

## THE MAGNIFIER IN THE EYE

NEW HOPE FOR PATIENTS WITH MACULAR DEGENERATION

SML is a bifocal intraocular lens based on a proven **ADD-ON** platform (over 4.000 pcs implanted with outstanding results). A specifically designed central optic area provides high addition power of +10.00D without affecting distance vision or visual field.

*“Centers well, fits into different sizes of eyes, interlenticular distance always present, minimal tilt.”\**

*“I have found SML as a simple, safe and effective option to enhance the reading vision in patients with age related macular degeneration.”*

**Sathish Srinivasan FRCSEd, FRCOphth, FACS**  
(Ayr, Scotland, UK)

*“SML – a new hope for patients with AMD, return to active life without stigmatization and for a reasonable price.”*

**Prof. MUDr. Pavel Rozsival, CSc**  
(Teaching Hospital, Charles University, Hradec Kralove, Czech Republic)

*“The SML is an important progress for AMD patients, to manage their daily routine.”*

**Anneliese Riehl, MD**  
(nordBLICK Augenklinik Bellevue, Kiel, Germany)

*“Patient selection is paramount. In case of our meticulously selected macular patients the SML provided a good reading visual acuity. Patients were enthusiastic about the results – so was I.”*

**Prof. Zoltan Z. Nagy, MD, med.habil, DSC**  
(Semmelweis University, Budapest, Hungary)
